

Floor-Marking Borders & Symbols

Add visual impact to your work environment quickly and easily!

What is a Visual Workplace?

A Visual Workplace is an environment that speaks for itself by:

- Identifying and correcting abnormal situations
- Directing behavior
- Eliminating missing information
- Reducing injury
- Using KPI (Key Performance Indicators) to reveal opportunities for improvement.

***You won't GET LEAN...
until you GET VISUAL!***

Floor-Marking Borders & Symbols

Add significant visual impact to your work environment with vinyl Floor-Marking borders and symbols instead of paint. You can clearly define work areas, production, direction, shipping lanes, emergency exits, and more!

- Standardize departments
- Organize your workplace
- Increase workplace safety
- Support 5S and Lean Management programs

Don't limit yourself to just floors. Imagine all the locations in your facility that could benefit from clearly marked walkways or symbols to communicate messages quickly. Apply borders and symbols to work benches, shelves, cabinets, drawers or office environments. Borders define a designated location for key items in the work area. In addition, borders and symbols make it clear when an item is out of place or missing.

Imagine all the locations in your facility that could benefit from clearly marked walkways or symbols to communicate messages quickly.

Marking your floors is one of the fastest and easiest ways to add visual control and organization to your work environment. No dry time, fumes or messy cleanup to limit productivity; simply cure for 24-48 hours. When changes occur, Floor-Marking borders and symbols can be easily removed by applying heat and scraping. Unlike conventional paints, there are no chemicals required for removal. This complies with 5S and Lean initiatives to keep your workflow on track.

Gwendolyn D. Galsworth, author of *Work that Makes Sense: Operator-Led Visibility*, 2011 Shingo Prize Research recipient, offers 10 reasons for borders.

Why Use Borders:

1. Reveal the pattern of work
2. Give meaning to the word empty

Allow us to instantly see:

3. When an item is out of place
4. When an item is missing
5. Object intruders
6. What space is available
7. What space is not available
8. The extent of function
9. Where we are supposed to work
10. Where we are not supposed to work.

*Borders and Symbols
add visual control and
organization to your
work environment
quickly and easily.*

Visual Workplace, Inc. offers FLOOR-Mark® – a better alternative to traditional tape and paint for marking floors and other areas of the workplace quickly and easily. FLOOR-Mark features peel-and-stick backing for simple application, while delivering superior adhesion compared with traditional tape products that are prone to curling, stretching and snagging. And, where paint can be messy to apply and more cumbersome to remove, FLOOR-Mark applies cleanly and is easily removed as needs evolve. The same great product is now available in symbols that can be customized to meet your needs.

FLOOR-Mark®
because tape doesn't work

Uses of FLOOR-Mark and symbols:

Work floor:

- Designate aisles, paths, walkways, hazards, off limits, and other areas
- Footprints that indicate direction
- Corners & Ts to mark off specific areas and equipment locations
- Marking common facility areas such as finished goods, material waste, work in progress, raw materials, pallet locations and shipping and receiving docks

Kaizen the office:

- Trash, recycling locations
- Carts and equipment
- Mail room
- Employee break room

Hospitals:

- Directional indicators
- Room locators
- Equipment placement
- Inventory storage
- Emergency exits

Floor-Mark provides an easy way to make a visual impact in your work environment.
